Type of Development:

- | | | | |
|--|-----------------------------------|---|--|
| <input type="checkbox"/> Excavation | <input type="checkbox"/> Fill | <input type="checkbox"/> Grading | <input type="checkbox"/> Utility Construction |
| <input type="checkbox"/> Renovation | <input type="checkbox"/> Addition | <input type="checkbox"/> Residential Construction | <input type="checkbox"/> Nonresidential Construction |
| <input type="checkbox"/> Road Construction | | | |

Other (Specify): _____

Size of Development (acreage or other): _____

Firm Data: Map Panel #: _____ Suffix: _____ Map Panel Date: _____
 Map Index Date: _____ Flood Zone: _____ (flood zone type)

Regulatory Floodway Info:

- Inside Regulatory Floodway Outside Regulatory Floodway No Regulatory Floodway

DEVELOPMENT STANDARDS DATA

1. If inside regulatory floodway is check above, attach engineering certification and supporting data as required.
2. Base flood evaluation (BFE) per FIRM at development site _____ (NGVD)
3. Regulatory flood elevation at development site (BFE + locally adopted freeboard): _____ (NVGD)
4. Elevation in relation to mean sea level (NSL) at or above which the lowest floor (including basement) must be constructed _____ (NGVD)
5. Elevation in relation to mean sea level at or above which all attendant utilities to include, but not limited to, all heating, air conditioning, and electrical equipment must be installed _____ (NVGD)
6. Will garage (if applicable) be used for any purpose other than parking vehicles, building access, or storage? _____ If yes, then the garage must be used in determining the lowest floor elevation.
7. Proposed method of elevating the structure: _____
 - If foundation wall is used provide minimum of two (2) openings
 - Total area of opening required: _____ (1 sq. inch per sq. foot of enclosed footprint area below BFE)
8. Will any watercourse be altered or relocated as a result of the proposed development? _____
9. Floodproofing information (if applicable): Elevation in relation to mean sea level (MLS) to which structure shall be floodproofed _____ (NGVD).

APPLICATION FOR FLOODPLAIN DEVELOPMENT PERMIT

Applicant acknowledgement: I the undersigned understand that the issuance of a floodplain development permit is contingent upon the above information being correct and that the plans and supporting data have been or shall be provided as required. I also understand that prior to occupancy of the structure being permitted, an elevation and/or floodproofing certificate signed by a professional engineer or registered land surveyor must be on file with the Town of Fuquay-Varina Department indicating the "as built" elevations in relation to mean sea level (MSL).
