

Fire Hydrant Flow Test

Date: July 6, 2020

All fire hydrant flow tests shall be performed using the following procedure. It is the responsibility of the testing contractor to provide equipment that will eliminate potential impacts to public safety and damage to physical property. Contact the Fire Marshal's Office with any questions.

- Schedule all fire flow tests with the Fire Marshal's Office. 919-753-1014
- Complete the operational permit application and pay the \$50.00 permit fee. Application and permit fee should be delivered to the finance payment window at the town hall.
- Provide the Fire Marshal's Office with a site plan showing project location and fire hydrants that will be flowed prior to test.
- Contractor to provide all equipment required for flow test.
- Fire Marshal staff will approve test equipment set up and witness flow test.
- Provide flow test results to the Fire Marshal's Office and the Public Utilities Department.
