

Town of Fuquay-Varina

SECOND QUARTER FISCAL SUMMARY FY 20-21

JoAnne J. Crabtree
Finance Director

The following report contains a summary of financial activity for the General Fund and Enterprise fund for the Town. Highlighted are various revenues & expenditures for the quarter ending December 31, 2020, which is the Second quarter of the 2020-2021 fiscal year. The Second quarter should represent approximately 50% of the operating budget with some exceptions as discussed in the summary. For comparative purposes, some totals for the fiscal year 2019-2020 are also presented.

Attached behind the summary is the Budget Performance Report. This report contains the detail line items for departments in the General Fund and the Water & Sewer Enterprise Fund. For each line item there are columns showing the original budget, amended budget, current month activity, encumbrances, year to date activity, remaining budget available, percent of the budget utilized and the prior year totals from the same time in the previous year. Encumbrances represent contracts or obligations of funding from the current fiscal year budget and reserves those funds for payment upon execution of the contract or receipt of the purchased item.

Please feel free to ask any questions about the enclosed reports.

SUMMARY OF FINANCIAL POSITION GENERAL FUND

Revenues

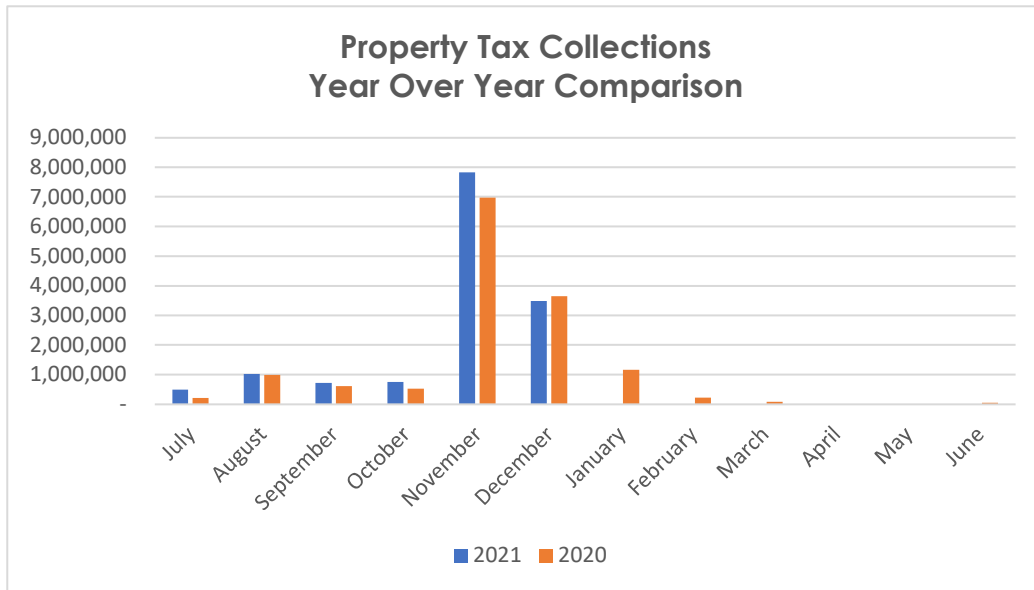

Revenues for the general fund include a wide variety of categories, however, listed below are a few that deserve highlighting the second quarter of FY 20-21.

Key Revenues - 2nd Qtr FY 2020-2021

Account Description	Amended Budget	YTD Transactions	Uncollected Balance	% Received
Property Taxes	17,205,000	14,301,033	2,903,967	83%
DMV Property Taxes	1,288,141	669,094	619,047	52%
Building Permits	1,200,000	913,907	286,093	76%
Waste	1,900,000	1,001,955	898,045	53%
Local Option Sales Tax	5,759,170	1,826,915	3,932,255	32%

Thus far, the Second quarter revenues are meeting, or exceeding budget as expected for this time of the year. Building permits continue to exceed expectations even amid pandemic concern. Inspectors are required to inspect portions of construction to ensure building standards are met. With the volume of building constructions in progress, the challenge is performing the many inspections within the mandated timeframe from when the inspection was requested.

When the budget was adopted, property tax revenue was estimated to provide 42.9% of General Fund budgeted revenue for the fiscal year. Property taxes are collected by Wake County and remitted to the town weekly. Vehicle taxes are collected by the NC Department of Motor Vehicles and remitted monthly and are trending just above expectations. Most property tax revenues (excluding vehicles) are collected during the months of November, December, and January. By December 31, 2020, 83% of budgeted property tax revenue has been received. January will provide most of the remaining budgeted revenues. For the Second quarter, revenue is trending as expected. The chart on the following page shows the Year over Year comparison of Property Tax Collections (excluding vehicles).

At the time of budget adoption, the effect of COVID on sales tax revenue was unknown. Due to business closures, stay at home orders and telework, a significant decline in sales tax was expected. For fiscal year 2020-21 sales tax revenue was projected to provided 13.3% of General Fund budgeted revenue, down from 17% in prior year adopted budget. Sales tax is collected by the State and remitted monthly to local governments. This exchange takes approximately three months between the point of sale to being received by the Town. Sales tax is computed by different methodologies but mainly driven by sales within Wake County and distributed based on the Town's population in relation to Wake Co and its other municipalities. Therefore, growth of retail and restaurants will bring additional sales tax revenue and likewise increased population will bring an additional proportionate share as well. The graph below, is a year over year comparison of Sales tax revenue received. Sales tax revenue is remaining stable. Although the level of growth seen previously has been reduced, any negative effect has been avoided thus far. There is still uncertainty regarding the effects on sales tax revenue, as restrictions due to COVID extend into 2021.

Investment Income

Currently the town invests its idle funds with the North Carolina Capital Management Trust (NCCMT). Investment rates are at an all-time low, but the value of safety and liquidity remains. Of the \$90.7 million, \$35.7 million are unspent bond proceeds and restricted reserves held for various future and ongoing projects, \$35.1 million in General fund and \$19.9 million held for Water & Sewer operations and projects.

Expenditures

The following is a summary of departmental General Fund expenditures for the quarter ending December 31, 2020.

Transfers to Capital Projects	3,517,689	-	0%
	<u>\$ 44,150,400</u>	<u>\$ 16,209,941</u>	37%

For the Second quarter of the year, expenditures should be around 50% spent. Currently, 37% of budgeted expenditures have been utilized. Much of this is due to projects being delayed until the effect of COVID on revenues was known. In addition, operations are still affected by COVID restrictions. Parks & Recreation and The Arts Center cancelled many programs and sought other ways of serving the citizens such as virtual classrooms, reduced class sizes and other creative ways within the restraints of public safety protocol.

The following tables summarize some key expenditure categories by department, including the Water & Sewer Enterprise Fund. Included in the tables are full-time salaries, fuel, supplies, small equipment, and capital equipment for your review.

**SUMMARY OF FINANCIAL POSITION
WATER AND SEWER FUND**

Enterprise Fund Revenues

The Water & Sewer Fund is a self-supporting enterprise fund for the provision of water & sewer services and funded by charges for these services. Revenue Bonds were issued to for the Wastewater treatment plant and the revenues from the enterprise fund are pledged to support the debt. The primary revenue sources are generated from water & sewer charges for sales & service. Because of the considerable amount of development within our Town, the demand for services on our current system has increased exponentially. System Development fees are charged to developers to assist in funding costs to expand capacity and infrastructure to support the additional demand on the system. The Second quarter totals are listed below.

Key Revenue Report for the Second Quarter

	Amended Budget	YTD Transactions	% Rec'd
Water Sales	6,787,659	3,266,654	48%
Sewer Service	6,986,100	3,384,120	48%
Water Development Fee	1,800,000	2,502,066	139%
Sewer Development Fee	2,925,000	3,942,246	135%

Water sales revenue provides 47% of the Water and Sewer Fund budgeted revenue. At the current time, we have billed 48.13% of budgeted revenue for the fiscal year. Sales are slightly less than budget primarily due to lower utilization due to closures of schools and other various businesses. Water purchases are also below the budgeted expectation at this point of the year. This revenue item is monitored monthly and compared to prior year. In addition, typically water utilization increases in the spring and summer months due to irrigation use. It is anticipated that water revenue will meet budget expectations for the fiscal year, partially attributed to the change in rate structure for this fiscal year. Any underutilization will be offset by the reduction in water purchases.

Water and Sewer Development fees are receipted in the Water and Sewer Capital Reserve Fund. These funds are not used for operating expenditures but are set aside to help pay debt or finance capital expenditures for water and sewer projects. The 2020-2021 budget includes a \$3,821,678 transfer from reserves to the operating fund and \$1,503,322 to the Water & Sewer Capital Project fund. All the development fees budgeted for the year are allotted to capital projects. In the Second quarter, almost 139% of budgeted fees are collected. With the increased development, additional capacity and infrastructure expansion is needed to accommodate the additional capacity needed for customers added on the system.
